Upper Division Stage Management Class. Required class for all majors – for stage managers and non-stage managers. Used two practical examples of shows I was working on – a dance concert and a theatrical production – to teach the collaborative nature of theatre with the stage manager as the hub of the process. Use of practical assignments (generate rehearsal paperwork based on script, script analysis, reading ground plans) and observation (attending a tech or calling of a performance) to help show the role of stage management in the creative and production process.
